

AUTOMOTIVE SOLUTIONS

Creating World-Class Connected and Personalized Experiences for Drivers

Using a wide breadth of dynamic data and innovative technology, INRIX delivers drivers a journey that is easier, safer and more enjoyable.

INRIX leads the market in connected car services. Our deep expertise with driver-centric applications and platforms guarantees that automakers not only help drivers understand and handle real-time factors impacting their travel, but also delight drivers by predicting what they uniquely need and desire.

INRIX cloud-based driver services help automakers arm drivers with the information and assistance they need to get where they're going faster and safer. Through crowd sourcing and hundreds of global and regional partnerships with leading data suppliers, we offer a single source to develop solutions that protect, assist and entertain drivers around the world. INRIX sets the pace for innovation in the automotive industry, helping automakers broaden their revenue streams and stay ahead of the competition.

“Helping to ease the challenges that Audi drivers face in their daily lives is the core mission of the Audi connect suite of connected car services. By offering the ability to easily navigate to the best parking spot available for their vehicle, Audi has further simplified and improved the ownership experience.”

15 MILLION
 Connected cars worldwide powered by INRIX

INRIX equips automakers with all the information, insight and technology they need to create high quality, connected, and personalized experiences for their drivers.

TRAFFIC

Accurate and granular global traffic providing real-time, historic and predictive traffic to deliver the best routes to drivers

PARKING

A seamless experience for quickly finding, comparing, reserving and paying for parking spaces anywhere

SAFETY

Hyper-local, real-time alerts such as dangerous road and weather conditions, sudden stops and accidents and hazards to keep drivers safer

OPENCAR

Complete application development toolset giving automakers total control over the driver experience, including oversight of the in-vehicle app ecosystem

AUTOTELLIGENT

Intelligence that integrates all of INRIX's connected car services with contextually relevant and highly personalized data feeds from the driver

OTHER DRIVER SERVICES

Additional services include fuel information, local search and geocoding, flight information, traffic cameras and drive times.

TRUSTED BY THE LEADING AUTOMOTIVE BRANDS

INRIX partners with some of the most innovative automakers to bring cutting-edge in-car and mobile solutions to life, improving the way people move around on roads and in cities.
